Classification: UNCLASSIFIED
Caveats: NONE

I received the email below yesterday and returned Kerry's call to request that she send her inquiries to EPA and that EPA will need to respond to her inquiries. However, during the call, she did ask a couple questions and I responded in accordance with information that was in the IB Alignment Assessment Report and the prepared talking points. See attached record of verbal correspondence.

I do believe she now understands that the Corps will not directly answer any further inquiries and that she will need to go through you from now on. For any future emails received, I will respond to her via email and CC: you and state that her inquiries are being forwarded to EPA for response. Any calls received, I will ask her to contact you for response.

Please let me know if you have any questions/concerns.

Thanks,
Robyn

Subject: [EXTERNAL] USACE agreement with EPA

Robyn,

It was good to see you and the USACE staff last night. I wanted to ask a question and if this is best answered by phone feel free to call me.

Since USACE has written an evaluation of the 3 possible PRP designs to build the isolation barrier at West Lake Landfill, how difficult would it be for the Corp to provide an alternative plan for consideration if requested?

The Senator is concerned with the 18 month design planning timeline. In your opinion what is causing such a delay? Not having an engineer degree I am unclear if this is a normal timeline.

Thanks again.

Kerry J. DeGregorio
